Infection Control Driver Training
Standard Cleaning/Disinfecting Practices

It is our top priority to ensure the safety of our drivers and riders. Effective infection control standard practices protects both drivers and riders from invisible enemies.

It is up to our dedicated drivers to guarantee vehicles are properly cleaned *AND* disinfected to decrease the risk of serious harm from contagious illnesses. Vehicles should be cleaned/disinfected after each route.

Two Steps: Cleaning THEN Disinfecting

- Use appropriate personal protective equipment (disposable gloves, eyewear, etc.) when cleaning/disinfecting vehicles

1. Clean/wash any visible contamination with a multi-surface disinfectant or soap & water solution prior to disinfecting

AND

2. Disinfect all contact surface areas with an approved disinfectant wipe or spray provided by your regional office. Allow the disinfectant solution air dry for 3 minutes before wiping residual solution off.

Driver Infection Control Practices

- Stay home if sick
- Use a new pair of disposable gloves when coming into direct contact with/assisting each rider. Immediately discard gloves after assisting each rider to prevent cross contamination
- Properly washing/sanitizing hands after assisting each rider
- Have tissues readily available for riders to use, which will help eliminate riders from sneezing or coughing directly into the air
- Clean/Disinfect all high touch surface areas, including personal items (cell phone, etc.)

Cleaning/Disinfecting Supplies:

- Disposable Gloves
- Single Use Wipes
- Disinfectant Wipes/ Spray (EPA-approved)
- Multi-surface disinfectant (EPA-approved)
- Mop/Floor Cleaning Device
- Hand sanitizer/Hand Washing Access

Driver Surface Contact Areas:

- Steering wheel
- Driver's door
- Tablets/Pens
- Cash
- Vehicle controls (radio, climate control buttons)
- Securement devices
- Rider mobility devices

Rider Surface Contact:

- Areas
- Seats
- Safety handles
- Seatbelts/Safety belts
- Lift safety handles
- Windows
- Torso belts
- Cash
- Vehicle floor
